

# Telepsychiatry Solutions

.....

As the industry leader and a trusted partner to health organizations nationwide, Array Behavioral Care offers unparalleled resources and expertise across the continuum of care.

## Why Array?

### Premier Provider

As the nation's leading and largest provider of telepsychiatry services, Array leverages its deep pool of telebehavioral health clinicians to deliver high-quality care to partners and their patients.

### Care Across the Continuum

With Scheduled, OnDemand and AtHome care available, Array's unmatched breadth of services helps health systems and other organizations meet patient needs in any clinical setting.

### Committed to Partner Success

Array seeks to form long-term strategic partnerships, providing partners with implementation, IT, regulatory insight and trusted guidance to help them build and deliver successful telepsychiatry programs.

## Benefits of Telepsychiatry

- 1 Increases patient access
- 2 Optimizes clinical care costs
- 3 Supports regulatory compliance
- 4 Reduces recruitment and retention costs
- 5 Creates new revenue opportunities

77%

of healthcare organizations believe that telepsychiatry significantly increases patient access to mental health services.

# Our Telepsychiatry Services

## Scheduled Care

With a telebehavioral health program, a clinician or team of clinicians are ready to serve your patients. They can do everything an onsite clinician can do. From evaluating to prescribing to participating in treatment team meetings, Array clinicians, consistent throughout the duration of your program, are matched to the needs of your organization and patients for optimal collaboration and unified patient care.

### Capacity and expertise

- Assessments
- Medication management
- Supervision
- Treatment team meetings

### Services for any setting

- Community mental health centers
- Primary care sites
- Correctional facilities
- Colleges and universities
- Tribal health and wellness centers
- Residential facilities

## OnDemand Care

Array OnDemand Care makes clinicians available to evaluate individuals upon request, collaborate with onsite resources and provide guidance in treatment decisions so that individuals can move on to appropriate next levels of care quickly. Our clinicians are credentialed at partner hospitals or healthcare organizations in states where they are licensed to offer around-the-clock coverage or as-needed coverage during difficult-to-staff hours.

With Array's on-demand telepsychiatry services, the onsite care team at your hospital can connect seamlessly with our remote psychiatric professionals who can evaluate patients via video and determine appropriate disposition, improving bed availability and care for everyone.

### Capacity and expertise

- Psychiatric evaluations
- Rounding
- After-hours admissions
- Crisis intervention and screening
- Consultation with onsite care team

### Services for any setting

- Hospitals
  - Emergency departments
  - Psychiatric inpatient units
  - Med/surg floors
- Psychiatric crisis centers
- Correctional facilities
- Organizations requiring as-needed assessments and care

## AtHome Care

Array's direct-to-consumer AtHome Care is designed to bring life-changing behavioral care directly into people's homes or place they choose. This makes it easier for individuals to get the help they need, when and where it works for them. By connecting with licensed professional therapists and psychiatry providers through our secure, HIPAA-compliant platform, individuals can actively engage with their own care and be the champion of their improvement.

1

Find a clinician who's the right fit

2

Schedule and change appointments

3

Access sessions through a computer, smartphone or tablet

## Your Program Directly to Patients, From Home

Array Scheduled Care also empowers your organization to extend your behavioral health program beyond the clinic. Whether an Array clinician or your very own team using our platform, broaden the reach of your care services and pass along convenience and travel cost savings to your patients by offering quality in-home behavioral care.

## About Array

Array is the leading and largest telepsychiatry service provider in the U.S. with a mission to transform access to quality behavioral healthcare. Its size, diversity of services and extensive experience and expertise have helped establish it as an industry thought leader that has helped to shape the field, define the standard of care and advocate for improved telepsychiatry-friendly regulations.
