stellarhealth

StellarHealth is a healthcare technology company focused on enabling success across the value-based care continuum by bridging the incentive gap between providers and payors. We've developed the first point-of-care, cloud-based platform that engages providers with patients, providing them real-time information and granular incentives for improving quality of care and patient health.

Vytalize

Vytalize Health is powering primary care practices with bold value-based incentives and smart technology. By specializing in Medicare services, Vytalize provides an all-in-one solution that is uniquely efficient and effective. Vytalize's care delivery model transforms the healthcare experience for tens of thousands of Medicare beneficiaries across 14 states by helping them take control of their chronic conditions in collaboration with their doctors.

InnovaCare Health improves the lives of patients and physicians through innovative solutions for value-based healthcare. Throughout its 20+ year history, InnovaCare has owned, operated and managed an integrated portfolio of leading medical groups, health plans, medical service organizations, clinical networks and more. These groups and IPAs have been in California, Arizona, Tennessee, Kansas, Illinois, Puerto Rico and Florida. We have owned MA Plans in Florida and Puerto Rico covering 276,000 MA lives and 300,000 Medicaid lives. Presently our focus is on provider groups, all lines of business and contracting with multiple Plans.

LiveCare has been based in NYC since 2018 and is the first in the world to develop Remote Patients Monitoring Smart Gateway.

The Link+ by LiveCare is disrupting the traditional RPM market with its proprietary automated and AI Technology.

Gold Level

athenahealth creates innovative healthcare technology that connects clinicians, patients, payers, and partners in differentiated ways. Our electronic health records, revenue cycle management, and patient engagement tools allow anytime, anywhere access, driving better financial outcomes for our customers and enabling our provider customers to deliver better quality care.

Persivia helps providers, hospitals systems and payers excel in value-based care.

Our single integrated platform - CareSpace harnesses the power of data & Artificial Intelligence to identify vulnerable populations, optimize risk adjustment, generate actionable insights, and coordinate care in real-time across the entire continuum, both in-person and virtual, to achieve improved outcomes.

Bronze Level

Bronze Level

Array Behavioral Care is the nation's leading virtual, measurement-based psychiatry and therapy practice. We deliver care directly to patients through live, secure video sessions with licensed behavioral health professionals who we employ and closely manage to provide reliable, timely capacity and specialty expertise where it is needed most.

BioReference Laboratories, Inc., is the largest full service specialty laboratory in the United States, offering comprehensive test solutions and unparalleled expertise to meet the needs of patients, employers, governmental agencies, educational systems, hospitals and health systems, correctional institutions, sports leagues, travel and leisure industries, and retail markets.

Callahan Financial has over 25 years of experience in the medical marketplace. Our firm provides planning services for individual physicians as well as development and implementation of discounted programs and other insurance and financial programs with hospitals, individual practices and professional medical associations.

Bronze Level

CARR

CARR is the nation's leading provider of commercial real estate for healthcare tenants and buyers. Each year hundreds of practices trust us to help them achieve the most favorable terms on their lease and purchase negotiations. By not representing landlords or sellers, we advocate for healthcare providers.

Diversified Medical Healthcare (DMH), headquartered in Greenville, SC, operates several portfolio companies empowering medical providers with resources to improve patient care nationwide. Offering advanced clinical laboratory services, medical supply and equipment distribution, sterile medical manufacturing of custom procedure trays, and medical data management software, Diversified Medical brands are leading innovation for a healthier tomorrow.

Bronze Level

Ideal Protein is a medically-developed weight loss protocol designed to optimize fat loss through nutritional ketosis. This low-carb, low-fat, adequate-protein protocol helps reverse the imbalance of insulin that occurs with the typical Western diet while protecting muscle mass. Personal coaches help patients lose weight and keep it off through healthy habits.

At PNC, we differentiate ourselves by offering experienced and dedicated healthcare bankers that perform a complete financial services review before offering solutions. PNC Healthcare Business Banking offers specialty lending for buy-outs, buy-ins, commercial real estate, equipment financing, technology, practice expansion and debt refinance.

At pulseData, our mission is to deliver proactive, precise care to every chronic disease sufferer, eliminating preventable sickness.

Value-based care teams use pulseData's software and prediction engines to find undiagnosed and unaware disease sufferers, drive precise interventions to eliminate adverse events, and deliver better clinical outcomes at a lower cost.

Together we use data science to deliver more human care.

MedVision is an advanced technology company providing the healthcare industry with a collection of integrated solutions designed to streamline business for healthcare organizations today. In a comprehensive modular design, MedVision provides solutions through its core application QuickCap (QC7). Designed for care coordination, population health and related business processes in value-based care - MedVision's product suite addresses models such as ACO, IPA, MSO, TPA, PHO, IDN, FQHC, and CMS' new DCE and Health Plan environments in administering health benefits, managed care programs and operational analytics.

The Centers for Medicare and Medicaid Services (CMS) has designated RadSite as an official accrediting body for diagnostic imaging. RadSite is the most innovative and cost-effective choice for accreditation— with dynamic solutions that can take you into the future of healthcare.

At Rose, we leverage a predictive modeling algorithm for early detection of depression and mood disorders symptoms and then connect the patient to the right care at the right time. This has proven to improve patient outcomes and has demonstrated a reduction in ED admissions and readmissions. We are achieving this goal by using our combined patient-facing mobile app and clinician dashboard paired with real time remote patient monitoring and 24/7/365 access to our Rose Care Team.

Using powerful and HIPAA secure software, SiteRx enables clinical research as a care option by automating the patient matching process associated with clinical trials. SiteRx unlocks ancillary revenue for providers without the risk of becoming a principal investigator or hiring staff. Once the provider approves a match, patient consent is captured, and the SiteRx patient experience team helps the patient register with the trial.

UNI Physician Placement is a nationwide preferred provider of Medical and Mental Health professionals. We look forward to becoming a flexible and reliable STAFFING AND RECRUITING option for your organization, or a source for nationwide tailored opportunities to diversify your practice and supplement your income. Stop by our booth to learn more.
